Office Action Summary

Art Unit: 1724

DETAILED ACTION***Election/Restrictions***

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

<i>Slurry Species</i>	<i>Slurry</i>
I	Silica Based
II	Alumina Based
III	Ceria Based
IV	Diamond Based
V	MnO ₂ Based

<i>End Cap Species</i>	<i>Corresponding Drawing Figure</i>
I	3
ii	5
iii	6
iv	7
v	8
vi	9

Art Unit: 1724

Applicant is required, in reply to this action, to elect a single Slurry and End Cap (one of each) species to which the claims shall be restricted if no generic claim is finally held to be allowable. **The reply must also identify the claims readable on the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Presently, claim 16 is generic to each slurry species. Claims 1-9 appear to be generic with respect to the end cap species.

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features as discussed in Applicants' specification. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any

Art Unit: 1724

amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

4. Applicants may wish to again review the claims for *improper* multiple dependencies.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Robert James Popovics whose telephone number is (703) 308-0684.
